

Get a head start for summer with your LMS - increase staff performance and create engaging learner experiences.

This month we have been focusing on building new partnerships with [University of Cambridge](#) delivering an e-assessment solution. Working closely with our Irish partnerships, current and new including: [Dublin City University](#), [Griffith College](#), [Maynooth University](#) and [Galway-Mayo Institute of Technology](#) on a variety of e-learning design projects, training and scalable AWS hosting solutions.

Internally we have been focussing on employee engagement, uniting our team and performance management and learn how to better build an engaged and motivated workforce.

What's new?

E-assessment solution

University of Cambridge

Catalyst are honoured to be working and partnering with the University of Cambridge with a recent e-assessment

project - moving from on-premise systems to a scalable, Cloud hosted solution to support 30,000 global students taking high stakes exams. Case study to follow next month. Contact us to learn more about our e-assessment solutions.

Expanding our European client portfolio

Consultancy and training

We are working with [Griffith College](#) on a Mahara consultancy project helping build an enhanced e-portfolio solution for their healthcare apprenticeships.

Our learning technologist team have also been working with our European client portfolio for a comprehensive review on their current LMS platform. Working closely with [KS](#) on a Moodle platform user experience review and [Kaplan](#) for a learner assessment feedback journey. Contact us to learn more about our bespoke training and consultancy solutions.

Driving collaboration and engagement

Totara Perform and Engage

We have been utilising Totara Perform and Engage to work collaboratively at Catalyst with our geographically dispersed team. We share our insights and resources daily and monthly to unite the team with peer to peer interaction. We have refreshed our competency frameworks to help clarify job roles and identify drivers and elements of success within the organisation. Watch out for our 'how to' updates on social channels.

Digital wellbeing and learning design

Moodle Moot Croatia 2021

Keynote speakers at Moodle Moot Croatia 2021, Jasmin Davies-Hodge and Sam Taylor discussed digital wellbeing and learning design. Since the pandemic-induced worldwide shift to online delivery of education, we identify key online learnings from 20/21 and how to further adapt teaching practice. Presenting feedback from the UK/Irish Moodle community, with a focus on Learning Design, Accessibility and Inclusivity. Learn more about training and consultancy options.
